

To Whom It May Concern:

12-12-14

To those of you that are unfamiliar with Mabe Steel Inc., let this serve as an introduction and recommendation.

I have been with Samet Corporation for ten years and in the business for forty years. It was my sincere pleasure to work with Bryan Mabe on the Nypro Project in Mebane, NC. This project was a seventy five thousand addition to an existing plant that is in full production 24-7. It was a precast exterior wall, load bearing structure with a post and beam construction-metal deck facility along with dual roof top cooling tower support structures.

Bryan and his team did a stellar job on this project. From pre-construction to finish product, Bryan was involved in every phase of the project. From his pre-construction involvement to his hands on erecting of the project, he was dialed in and attentive to the entire operation. His crews, with or without him on board, were professional, respectful and very knowledgeable to their trade.

I can say without hesitation that Bryan is a man of his word. He is without question an honest business man and his character at all-times reflects that.

I have no problem putting my reputation on the line to recommend Bryan Mabe. His character and his reputation precede him in all that he does.

I would welcome any inquiries into Bryan Mabe of any kind, whether professional or personal.

Respectfully,

DeJuan Jernigan
